

For Immediate Release | July 16, 2021

Interior Health responding to Thompson Cariboo region wildfires

100 Mile House – Interior Health is supporting additional care home evacuations due to wildfire activity in Thompson Cariboo region.

Forty five additional care home residents are being proactively evacuated from 100 Mile House to ensure the safe continuity of their care. All privately operated and Interior Health assisted living and long-term care homes are now being evacuated from this community with support from IH.

In total, 90 long-term care and 29 assisted living residents have been proactively evacuated with support staff to neighboring communities.

The 100 Mile District General Hospital is not evacuated at this time, anyone requiring emergency care should proceed to this hospital as needed.

Due to the evacuation alerts in place throughout the region, the COVID-19 immunization clinic in 100 Mile House remains cancelled and anyone with appointments will be contacted directly to reschedule.

We are working closely with municipalities, regional districts, and the BC Wildfire Service to ensure precautions are underway to protect patients, clients, and residents.

Those requiring support during this crisis are encouraged to call the BC Crisis Line at 310-6789.

Interior Health also continues to monitor wildfire activity across the region. Wildfire planning includes supporting anyone who may be in isolation due to COVID-19. We will ensure separate arrangements are made for anyone with confirmed or suspected COVID-19 to protect the public from potential exposure.

Everyone is reminded to make preparations for wildfires, and smoky skies as air quality deteriorates by visiting: <https://www.interiorhealth.ca/YourEnvironment/Emergency/Wildfires/Pages/default.aspx>

Install the BC Wildfire Service mobile app (Android or iOS) or visit the BC Wildfire Service Dashboard to find information on current wildfire activity:
