

Supervised Consumption Services (SCS)

What are SCS?

Supervised consumption services provide a safe, clean space for a person to use substances under the supervision of a health care professional and to engage in health and social services.

What is OAT?

Opioid agonist treatments help with opioid (heroin, morphine, fentanyl, etc.) withdrawal and cravings. It can help a person to engage in therapy and counselling.

Benefits

Less overdose deaths

Less discarded needles

Less public drug use

Reduced sharing of needles

= Less HIV & Hepatitis C transmission

Increased access to services

= Increased use of detox & treatment

Supervised consumption services save lives and improve community well-being.
