

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

Interior Health would like to recognize and acknowledge the traditional, ancestral, and unceded territories of the Dākelh Dené, Ktunaxa, Nlaka'pamux, Secwépemc, St'át'imc, Syilx, and T̓silhqot'in Nations, where we live, learn, collaborate and work together.

Interior Health recognizes that diversity in the workplace shapes values, attitudes, expectations, perception of self and others and in turn impacts behaviors in the workplace. The dimensions of a diverse workplace includes the protected characteristics under the human rights code of: race, color, ancestry, place of origin, political belief, religion, marital status, family status, physical disability, mental disability, sex, sexual orientation, gender identity or expression, age, criminal or summary conviction unrelated to employment.

1.0 PURPOSE

To provide direction for the responsibility of reporting and review of safety information and Serious Adverse Events related to research involving human participants previously approved by the Interior Health (IH) Research Ethics Board (REB).

2.0 DEFINITIONS¹

TERM	DEFINITION
<i>Adverse Event (AE)</i>	<i>Any untoward medical occurrence in a research participant administered an investigational product and which does not necessarily have a causal relationship with this treatment. An AE can therefore be any unfavourable and unintended sign (including an abnormal laboratory finding), symptom, or disease temporally associated with the use of an investigational product, whether or not related to the investigational product.</i>
<i>Clinical Trial</i>	<i>Any investigation in human participants intended to discover or verify the clinical, pharmacological and/or other pharmacodynamic effects of an investigational product(s), and/or to identify any Adverse reactions to an investigational product(s), and/or to study absorption, distribution, metabolism, and excretion of an investigational product(s) with the object of ascertaining its safety and/or efficacy. Note: A Clinical Trial may also</i>

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

	<i>involve a device, observation, questionnaires, interviews or diagnostic tests.</i>
<i>Data and Safety Monitoring Board (DSMB)</i>	<i>A multi-disciplinary expert advisory group established by a research Sponsor, that is responsible for safeguarding the interests of participants by reviewing emerging data, assessing the safety and efficacy of research procedures, and monitoring the overall conduct of the research. .</i>
<i>Local Adverse Event</i>	<i>An Adverse Event occurring at a site under the jurisdiction of the IH REB.</i>
<i>Serious Adverse Event (SAE) or Serious Adverse Drug Reaction (ADR):</i>	<i>Any untoward medical occurrence that at any dose: results in death, is life threatening, requires inpatient hospitalization or prolongation of existing hospitalization, results in persistent or significant disability or incapacity, or is a congenital anomaly or birth defect.</i>
<i>Suspected Unexpected Serious Adverse Reaction (SUSAR)</i>	<i>A Serious Adverse drug, device, or natural health product reaction that is not identified in nature, severity or frequency in the risk information set out in the Investigator's Brochure or on the label of the drug or natural health product.</i>
<i>Sponsor</i>	<i>An individual, company, institution, or organization that takes responsibility for the initiation, management, and/or financing of a Clinical Trial.</i>
<i>Unanticipated Problem</i>	<p><i>Any incident, experience, or outcome (including an Adverse Event) that meets all of the following criteria:</i></p> <ul style="list-style-type: none"> <i>• *Unexpected (in terms of nature, severity, or frequency) given (a) the research procedures that are described in the protocol-related documents, such as the REB approved research protocol and informed consent document, or the Investigator Brochure; and (b) the characteristics of the research participant population being studied; and</i> <i>• +Related or possibly related to participation in the research, (possibly related means there is a reasonable possibility that the incident, experience, or outcome may have been caused by the [investigational product(s)] or procedures involved in the research); and</i> <i>• Suggests that the research places research participants or others at a greater risk of harm (including physical, psychological, economic, or social harm) than was previously known or recognized.</i>

Policy Steward: Chief Nursing & Allied Health Officer & Professional Practice Leader	
Date Approved: March 6, 2008	Date(s) Reviewed-r/Revised-R: November 2014 (R); January 2019 (R); January 2022 (r); July 2023 (R)
<i>This is an Interior Health CONTROLLED document. A copy of this document in paper form is not controlled and should be checked against the electronic file version to ensure accuracy.</i>	

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

	<p><i>*Unexpected: an event is “Unexpected” when its specificity and severity are not accurately reflected in (a) the protocol-related documents such as the REB approved research protocol, the Investigator Brochure, or the current REB approved informed consent document, or (b) other relevant sources of information such as product labelling and package inserts; or when the event is not associated with the expected natural progression of any underlying disease, disorder, predisposing risk factor, or condition of the participant(s) experiencing the Adverse Event.</i></p> <p><i>+Related to the research procedures: an event is “related to the research procedures” if in the opinion of the researcher or Sponsor, the event was more likely than not to be caused by the research procedures.</i></p>
--	--

3.0 POLICY

3.1 Safety Reporting

- 3.1.1 The REB will review any new information generated throughout the course of the research that might affect the rights, safety and well-being of research participants. Such information may include:
 - 3.1.1.1 Reports of Unanticipated Problems involving risks to participants or others;
 - 3.1.1.2 Reports of any serious or continuing non-compliance;
 - 3.1.1.3 Reports of any changes significantly affecting the conduct of the research or increasing the risk to research participants;
 - 3.1.1.4 Results of any interim analysis or Data and Safety Monitoring Board (DSMB) assessments;
 - 3.1.1.5 Local Adverse Events that meet the reporting criteria as provided in the protocol for the study associated with the SAE;
 - 3.1.1.6 Summary reports of any audits and inspections; or
 - 3.1.1.7 Any other new information that may affect adversely the safety of the research participants or the conduct of the research.

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

- 3.1.2 Researchers and the REB are not appropriately situated to assess the significance of individual Adverse Events occurring at sites outside their jurisdiction. The REB respects that the Sponsor and/or DMSB are responsible to analyze safety and Adverse Event information for multi-jurisdictional studies and will accept their reports.
- 3.1.3 If a safety report represents a significant change to the level of risk to participants full Board review will take place at the next scheduled REB meeting.
- 3.1.4 For safety events reviewed at a full Board meeting, the REB will determine whether further action is required. Possible actions the REB may take include, but are not limited to:
 - 3.1.4.1 Placing a hold on the research pending receipt of further information from the researcher;
 - 3.1.4.2 Requesting modifications to the research;
 - 3.1.4.3 Requesting modifications to the study documents shared with participants;
 - 3.1.4.4 Providing additional information to past participants;
 - 3.1.4.5 Notifying current participants when such information might affect the participants willingness to continue to take part in the research, and requiring that current participants re-consent for ongoing participation;
 - 3.1.4.6 Altering the frequency of continuing review;
 - 3.1.4.7 Termination or suspension of the research;
 - 3.1.4.8 If the REB determines that the event does not raise concerns about risks to research participants, the REB may decide that no further action needs to be taken.
- 3.1.5 When action is taken to ensure the protection of the rights, safety, and wellbeing of participants (e.g., for an Unanticipated Problem involving risks to participants or others) the REB Chair or designee is responsible for notifying the researcher. The Chair will also report to the Chief Nursing & Allied Health Officer and Professional Practice Leader, who in turn will report to the Vice President, Human Resources (VP HR). The

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

VP HR has the authority to notify the Sponsor and the appropriate regulatory authorities (as applicable).

3.2 Researcher Responsibilities

- 3.2.1 The researcher shall provide the REB with an acceptable plan for monitoring the safety of participants.
- 3.2.2 The researcher is responsible and accountable for the safety of participants for the duration of the research project including ongoing evaluation of risk of harm related to Adverse Events. The researcher will evaluate all Local Adverse Events during the study and determine whether the events are considered Serious against the following criteria:
 - 3.2.2.1 Results in death;
 - 3.2.2.2 Is life-threatening;
 - 3.2.2.3 Requires hospitalization or prolongation of existing hospitalization;
 - 3.2.2.4 Results in persistent or significant disability or incapacity;
 - 3.2.2.5 Results in a congenital anomaly; or
 - 3.2.2.6 Jeopardizes the participant or requires intervention to prevent one of the outcomes listed above.
- 3.2.3 The researcher shall promptly report any new information that may affect the welfare or consent of participants to the REB, and to other appropriate regulatory or advisory bodies. Events that may increase the level of risk to participants, or have other ethical implications that may affect participants' welfare must be reported within **14 calendar days**. Local Serious events, where there is real harm to participants, must be reported to the REB at the earliest opportunity and no later than **7 calendar days** from the time of the event.
- 3.2.4 For Local Adverse Events, drug reactions, and Unanticipated Problems the researcher should include the following information in the report of the event:
 - 3.2.4.1 A description of the event including severity, with participant identifiers removed (use participant's research ID only);
 - 3.2.4.2 Attached copy of the completed Serious Adverse Event form and signed by the researcher or medical designee;

<i>This is an Interior Health CONTROLLED document. A copy of this document in paper form is not controlled and should be checked against the electronic file version to ensure accuracy.</i>		

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

- 3.2.4.3 The proposed research changes, study document changes or other corrective actions to be taken by the Sponsor or the site in response to the event(s);
- 3.2.4.4 Once a Local Adverse Event is acknowledged by the REB, subsequent important follow-up reports related to the event should be submitted when available, as update(s).
- 3.2.5 When new information is relevant to the participants' welfare, the researchers shall promptly inform all participants to whom the information applies (including former participants). In certain circumstances, e.g. when there is a privacy breach, the researcher will work with the REB to determine which participants must be informed and how the information should be conveyed.

4.0 PROCEDURES

- 4.1 Research Ethics Board Coordinator
 - 4.1.1 Receives all safety information and reports, determines level of risk, and responds as follows:
 - 4.1.1.1 For reports that present no risk to participants, sends an Acknowledgement of Receipt e.g. CIOMS reports, Dear Investigator Letters, periodic line listings, DSMB reports.
 - 4.1.1.2 For Local Events that are Serious but expected, are not related to the investigational product or research procedures, or are not Serious, forwards to the Chair for review.
 - 4.1.1.3 For Local, Serious and Unexpected Adverse Events, notifies the Chair, adds to the REB agenda for full board review, and reports the outcome of the review to the PI, in writing.
 - 4.1.2 For studies not housed on the RISE platform, adds all safety reports and related documents to the project file.
 - 4.1.3 Maintains tracking tool on all safety events and reports these to the REB at the next scheduled meeting.
- 4.2 REB
 - 4.2.1 Reviews all safety events that require full Board review.

RR0900 – SAFETY AND SERIOUS ADVERSE EVENTS REPORTING

- 4.2.2 Reviews the Safety Report and discusses safety events as required.
- 4.2.3 Issues provisos as required in the event that a Safety Report as submitted requires additional information in order for a decision to be reached.
- 4.3 REB Chair
 - 4.3.1 Reviews all safety information and reports and determines the level of risk. This may be delegated to the Research Ethics Board Coordinator.
 - 4.3.2 Sends acknowledgment to the researcher indicating;
 - 4.3.2.1 The event has been reviewed and acknowledged; or
 - 4.3.2.2 Further action is required by the researcher; or
 - 4.3.2.3 The event requires review by the full Board.
 - 4.3.3 Reports any Serious events posing immediate potential or real harm to participants to the Chief Nursing & Allied Health Officer and Professional Practice Leader, who in turn reports to the Vice President responsible for research.
